

**Supplement no. 1 dated 10 June 2026
to the Base Prospectus dated 30 March 2026**

VEOLIA ENVIRONNEMENT

(Established as a société anonyme in the Republic of France)

EURO 22,000,000,000

EURO MEDIUM TERM NOTE PROGRAMME

This first supplement (the "**Supplement**") is supplemental to and must be read in conjunction with the base prospectus dated 30 March 2026, which was granted approval number 26-067 on 30 March 2026 by the *Autorité des marchés financiers* (the "**AMF**"), prepared by Veolia Environnement ("**Veolia Environnement**" or the "**Issuer**") with respect to its Euro 22,000,000,000 Euro Medium-Term Note Programme (the "**Programme**"). The base prospectus as supplemented (the "**Base Prospectus**") constitutes a base prospectus for the purpose of Article 8 of Regulation (EU) 2017/1129 of 14 June 2017, as amended (the "**Prospectus Regulation**"). Unless otherwise defined, terms defined in the Base Prospectus have the same meaning when used in this Supplement.

This Supplement has been prepared pursuant to Article 23 of the Prospectus Regulation for the purposes of incorporating some recent information with respect to the Issuer. The impacted sections of the Base Prospectus are the following sections "*Information incorporated by Reference*", "*Recent Developments*" and "*General Information*" respectively.

This Supplement has been approved by the AMF in France in its capacity as competent authority pursuant to the Prospectus Regulation. The AMF only approves this Supplement to the Base Prospectus as meeting the standards of completeness, comprehensibility and consistency imposed by the Prospectus Regulation, such approval should not be considered as an endorsement of the Issuer or of the quality of the Notes. Investors should make their own assessment as to the suitability of investing in the Notes.

Copies of this Supplement are available for viewing on the website of the AMF (www.amf-france.org) and on the Issuer's website (www.finance.veolia.com).

Save as disclosed in this Supplement, there has been no other significant new factor, material mistake or inaccuracy relating to information included in the Base Prospectus which is capable of affecting the assessment of Notes issued under the Programme since the publication of the Base Prospectus.

To the extent that there is any inconsistency between (a) any statement in this Supplement and (b) any statement in, or incorporated by reference in, the Base Prospectus, the statements referred to in (a) above will prevail.

This Supplement has been approved on 10 June 2026 by the AMF, in its capacity as competent authority under Regulation (EU) 2017/1129, as amended.

The AMF has approved this Supplement after having verified that the information it contains is complete, coherent and comprehensible within the meaning of Regulation (EU) 2017/1129, as amended. This approval does not imply any verification on the accuracy of such information by the AMF.

This approval is not a favourable opinion on the Issuer and on the quality of the Notes described in this Supplement. Investors should make their own assessment of the opportunity to invest in the Notes.

This Supplement has the following approval number: 26-185.

Such sections are incorporated in and shall be deemed to form part of this Base Prospectus. Non-incorporated parts of the documents listed above are either non-relevant for the investors or covered elsewhere in the Base Prospectus.

Any statement contained in a document or part of a document which is incorporated by reference herein shall be modified or superseded for the purposes of this Base Prospectus to the extent that a statement contained herein modifies or supersedes such earlier statement (whether expressly, by implication or otherwise). Any statement so modified or superseded shall not, except as so modified or superseded, be part of this Base Prospectus. Statements contained in any supplement (or contained in any information incorporated by reference therein) published in accordance with section headed "Supplement to the Base Prospectus" of this Base Prospectus shall, to the extent applicable (whether expressly, by implication or otherwise), be deemed to modify or supersede statements contained in this Base Prospectus or in a document which is incorporated by reference in this Base Prospectus.

The 2025 Universal Registration Document and the 2024 Universal Registration Document are available for viewing on the website of the AMF (www.amf-france.org) and on the website of the Issuer (www.finance.veolia.com). The 2026 First Quarter Financial Report is available for viewing on the website of the Issuer (www.finance.veolia.com). Free English translations of the 2026 First Quarter Financial Report, the 2025 Universal Registration Document and the 2024 Universal Registration Document are also available for viewing on the website of the Issuer (www.finance.veolia.com). These documents are free translations of the corresponding French language documents and are furnished for information purposes only and are not incorporated by reference in this Base Prospectus. The only binding versions are the French language versions.

Other than in relation to the information which is deemed to be incorporated by reference, the information on the websites to which this Base Prospectus (including, for the avoidance of doubt, any information on the websites which appear in the information incorporated by reference) refers does not form part of this Base Prospectus unless that information is incorporated by reference into the Base Prospectus and has not been scrutinised or approved by the AMF.

For the avoidance of doubt, the information requested to be disclosed by the Issuer as a result of Annex 7 of the Commission Delegated Regulation (EU) 2019/980 as amended, supplementing the Prospectus Regulation and not referred to in the cross reference lists below is either covered elsewhere in this Base Prospectus or is not relevant to the investors.

The relevant page references for the information incorporated by reference herein in response to the specific requirements of Annex 7 of Commission Delegated Regulation (EU) 2019/980 as amended, are as follows:

	Information incorporated by reference	Page no. in the relevant document
3.	RISK FACTORS	
3.1	A description of the material risks that are specific to the issuer and that may affect the issuer's ability to fulfil its obligations under the securities, in a limited number of categories, in a section headed '<i>Risk Factors</i>'. In each category the most material risks, in the assessment of the issuer, offeror or person asking for admission to trading on a regulated market, taking into account the negative impact on the issuer and the probability of their occurrence, shall be set out first. The risk factors shall be corroborated by the content of the registration document.	pp. 66 and 74 to 102 in 2025 Universal Registration Document
4.	INFORMATION ABOUT THE ISSUER	
4.1	<u>History and development of the Issuer</u>	
4.1.1	The legal and commercial name of the Issuer	p. 498 in 2025 Universal Registration Document
4.1.2	The place of registration of the Issuer, its registration number and legal entity identifier ("LEI").	p. 498 in 2025 Universal Registration Document
4.1.3	The date of incorporation and length of life of the Issuer, except where the period is indefinite.	p. 498 in 2025 Universal Registration Document
4.1.4	The domicile and legal form of the Issuer, the legislation under which the Issuer operates, its country of incorporation, the address, telephone number of its registered office (or principal place of business if different from its registered office) and website of the Issuer, if any, with a disclaimer that the information on the website does not form part of the prospectus unless that information is incorporated by reference into the prospectus.	p. 498 in 2025 Universal Registration Document
4.1.5	Any recent events particular to the Issuer and which are to a material extent relevant to the evaluation of the Issuer's solvency.	pp. 332 to 336 in the 2025 Universal Registration Document pp. 5 to 21 in the 2026 First Quarter Financial Report

5.	BUSINESS OVERVIEW	
5.1	<u>Principal activities</u>	
5.1.1	A brief description of the issuer's principal activities stating the main categories of products sold and/or services performed.	pp. 25 to 28 in 2025 Universal Registration Document
5.1.2	The basis for any statements made by the issuer regarding its competitive position ¹ .	p. 33 in 2025 Universal Registration Document
6.	ORGANISATIONAL STRUCTURE	
6.1	If the issuer is part of a group, a brief description of the group and the issuer's position within the group. This may be in the form of, or accompanied by, a diagram of the organisational structure if this helps to clarify the structure.	p. 44 in 2025 Universal Registration Document
6.2	If the issuer is dependent upon other entities within the group, this must be clearly stated together with an explanation of this dependence.	N/A
7.	TREND INFORMATION	
7.1	A description of: (a) any material adverse change in the prospects of the issuer since the date of its last published audited financial statements; and (b) any significant change in the financial performance of the group since the end of the last financial period for which financial information has been published to the date of the registration document. If neither of the above are applicable then the issuer should include (an) appropriate negative statement(s).	N/A
9.	ADMINISTRATIVE, MANAGEMENT, AND SUPERVISORY BODIES	
9.1	Names, business addresses and functions within the issuer of the following persons and an indication of the principal activities performed by them outside of that issuer where these are significant with respect to that issuer: (a) members of the administrative, management or supervisory bodies;	pp. 104 to 122 in 2025 Universal Registration Document
9.2	Administrative, management, and supervisory bodies conflicts of interests Potential conflicts of interests between any duties to the	p. 122 in 2025 Universal Registration Document

¹ Internal sources of the Issuer.

	issuer, of the persons referred to in item 9.1, and their private interests and or other duties must be clearly stated. In the event that there are no such conflicts, a statement to that effect must be made.	
10.	MAJOR SHAREHOLDERS	
10.1	To the extent known to the issuer, state whether the issuer is directly or indirectly owned or controlled and by whom and describe the nature of such control and describe the measures in place to ensure that such control is not abused.	N/A
10.2	A description of any arrangements, known to the issuer, the operation of which may at a subsequent date result in a change in control of the issuer.	N/A
11.	FINANCIAL INFORMATION CONCERNING THE ISSUER'S ASSETS AND LIABILITIES, FINANCIAL POSITION AND PROFITS AND LOSSES	
11.1	<u>Historical financial information</u>	
11.1.1	Historical financial information covering the latest two financial years (at least 24 months) or such shorter period as the issuer has been in operation and the audit report in respect of each year

1. Press Release dated 9 June 2026

"

PRESS RELEASE

June 9, 2026

Veolia launches a new employee stock ownership plan offered to 180,000 Group employees

Veolia Environnement announces the launch of a new employee shareholding operation. This operation, offered to 180,000 Group employees, aims to involve them in Veolia's development and performance.

Key stakeholder and already the Group's largest shareholder, employees can thus strengthen their involvement in Veolia's strategy and growth.

This initiative allows employees to subscribe directly or indirectly to Veolia Environnement shares with a goal to further strengthen the connection between the teams and the Group's growth strategy.

The settlement and delivery of the new shares to be issued is expected to take place **on September 15, 2026**.

The main terms of this transaction are described below.

Issuing company

Veolia Environnement, a public limited company incorporated under French law

Listing: Euronext Paris (France)

Ordinary share ISIN code: FR0000124141 VIE

Objectives of the operation

This shareholding plan is part of the Group's policy of developing employee shareholding and aims to strengthen the position of employees as the company's largest shareholder. With this operation, which offers the possibility of subscribing directly or indirectly to Veolia Environnement shares, Veolia wishes to involve its employees even more closely in the Group's development, and in particular in the implementation of its new GreenUp strategic plan, which aims to accelerate the deployment of solutions in favor of decarbonization, depollution and regeneration of resources.

Framework of the operation - Securities offered

The offer is proposed within the framework of the Veolia Environnement group savings plan and international group savings plan in accordance with Articles L. 3332-18 et seq. of the French Labour Code and on the basis of the shareholders' authorisation granted by the 22nd resolution of the combined general meeting of April 23, 2026. Implementation of the offering on the basis of the resolution referred to above has been decided by the Board of Directors on May 5, 2026. The offer concerns a maximum number of 14,834,468 shares (*i.e.* approximately 2% of the share capital at the date of the combined general meeting of April 23, 2026).

The dates of the subscription/revocation period and the subscription price will be determined by a decision of the Chief Executive Officer, acting upon delegation of the Board of Directors, scheduled for July 29, 2026. The subscription price shall be equal to the average of the volume-weighted average prices of the Veolia Environnement share on Euronext Paris during the twenty (20) trading days preceding the aforementioned decision of the Chief Executive Officer (reference price), less a discount of 15% and rounded up to the next euro cent.

The new shares will carry immediate dividend rights.

Indicative timetable of the transaction

The timetable below is provided for information purposes only and may be modified due to events affecting the proper conduct of the transaction.

Reservation period: from June 9 to June 29, 2026 (inclusive)

Subscription price setting: July 29, 2026

Subscription/revocation period: July 31 to August 4, 2026 (inclusive)

Settlement and delivery of the offer: September 15, 2026

Terms and conditions of subscription

1. Beneficiaries of the offer

The offer is made pursuant to Articles L. 3332-18 et seq. of the French Labour Code, within the framework of the Group Savings Plan (PEG) and the International Group Savings Plan (PEGI) of Veolia Environnement. In the United Kingdom, employees can also invest in Veolia Environnement shares under the Share Incentive Plan.

It is open to employees of Veolia Environnement SA and participating subsidiaries in France and in 55 jurisdictions worldwide, with at least three months' service with the Group at the closing date of the subscription/revocation period.

Retired and early-retired former employees who have retained assets in the PEG since leaving the Group are eligible for the operation, without the benefit of the matching contribution.

2. Subscription formulas

Beneficiaries can subscribe to Veolia Environnement shares through two distinct offers, a secured offer with leverage effect and a classic offer:

- The secured offer with leverage effect: the subscriber benefits from a gross matching contribution of 100% of his/her personal contribution up to a limit of 300 euros, a guarantee of his/her total investment, including the matching contribution, and the higher of either (i) a minimum guaranteed return at predetermined rate on his/her investment, including the matching contribution, or (ii) a multiple of the possible increase in the Veolia Environnement share price.
- The classic offer: the subscriber invests in Veolia Environnement shares with a 15% discount on the reference price. The investment made in the classic offer presents a risk of capital loss insofar as it will follow the evolution of the Veolia Environnement share price, both upwards and downwards.

3. Method of holding the shares

Subscriptions are made through an FCPE or, in some countries, through direct shareholding.

The voting rights attached to the securities held in the FCPE will be exercised by the FCPE's Supervisory Board. Voting rights relating to securities held directly will be exercised by the subscriber.

4. Unavailability

The shares subscribed directly and the units of the FCPE will be blocked until June 2nd, 2031 unless one of the cases of early release provided for by Articles L. 3332-25 and R. 3324-22 of the French Labour Code, as applicable in the various countries where the offer is deployed, occurs.

Hedging transactions

The secured leveraged offer implies that the counterparty bank of the said offer will carry out hedging transactions, on and/or off the markets, by means of purchases and/or sales of shares, purchase of call options and/or any other transactions, at any time and in particular as from the opening date of the period for determining the subscription price and throughout the duration of the operation.

Listing of the shares

Veolia Environnement shares are admitted to trading on Euronext Paris. The newly issued Veolia Environnement shares will be listed on the regulated market of Euronext Paris as soon as possible after the completion of the capital increase. They will be admitted on the same quotation line as the existing shares (ISIN code: FR 0000124141-VIE) and will be fully assimilated to them as soon as they are admitted for trading.

Share buyback

Pursuant to the authorization granted by the 14th resolution of the combined shareholders' meeting of April 23, 2026, the Board of Directors of Veolia Environnement has authorized the share buyback in relation with the implementation of the 2026 employee shareholding operation. Veolia Environnement has decided to proceed with the repurchase of shares through a forward contract concluded with an investment service provider, which may independently carry out the buybacks during a period beginning on July 1, 2026 and ending on July 28, 2026 up to a maximum of 14,834,468 shares, to be delivered to Veolia Environnement on September 2, 2026. Shares are repurchased in order to meet obligations in relation with employee shareholding operations and in particular, their sale for the purpose of hedging of the secured offer proposed in certain countries.

Part of repurchased shares is intended to be cancelled, up to the number of shares issued in the context of the 2026 employee shareholding operation in order to neutralize the dilution resulting from this issuance of shares.

The share buyback program is described in section 7.1.3 (p. 485) of Veolia Environnement's 2025 universal registration document filed with the French Financial Markets Authority on March 19, 2026, and available on Veolia Environnement's website.

Specific information for the international implementation

This press release does not constitute an offer to sell or a solicitation to subscribe for Veolia Environnement shares. The offer of Veolia Environnement shares is strictly reserved for the above-mentioned beneficiaries and will be made only in those countries where, if applicable, such an offer has been registered with or notified to the competent local authorities and/or following the approval of a prospectus by the competent local authorities, or in consideration of an exemption from the obligation to prepare a prospectus or to register or notify the offer.

More generally, the offer will only be made in countries where all required registration procedures and/or notifications will have been carried out and the necessary authorisations obtained.

The Veolia Environnement shares that may be acquired in this offer are not subject to any recommendation by governmental market or regulatory authorities. No advice or recommendation to invest is given by Veolia Environnement or any employer. The investment decision is a personal decision, which must be made by each employee taking into account his/her or her financial resources, investment objectives, personal tax situation, other investment alternatives and the fact that the value of a listed share is fluctuating. In this respect, beneficiaries are invited to consider diversification of their investment portfolio to ensure that the envisaged risk is not too concentrated in a single investment.

The offer is made on a voluntary basis by Veolia Environnement. Neither Veolia Environnement nor the employers are obliged to repeat the offer or to make similar offers in the future. The terms and conditions of the offer do not form part of the employees' employment contracts. "

PRESS RELEASE

June 1, 2026

Veolia Completes Clean Earth Deal, Doubling Its U.S. Hazardous Waste Business and Expanding Its Growth Platform

- *Veolia reinforces its position as a world's leading hazardous waste management company, effectively doubling U.S. hazardous waste revenues*
- *The \$3 billion transaction adds robust treatment, storage and disposal capabilities, 2,600 highly trained people, and an expanded presence to Veolia's American offering, making the company an even greater powerhouse for innovative environmental services and solutions*
- *Backed by a strong integration track record, the transaction will deliver \$120 million of synergies by year 4*

Veolia, a leader in environmental services, has completed the financial close of its acquisition of Clean Earth, a hazardous waste management firm operating in a sector that has become increasingly critical for industrial competitiveness, public health and environmental security in the United States and worldwide.

This transaction doubles Veolia's footprint in the hazardous waste sector in the U.S. and brings the company's overall revenue in the U.S. to \$6.3 billion¹, thereby strengthening its global presence while enhancing its ability to deliver new services, efficiency gains and integrated solutions to its customers. Already a world's leader of hazardous waste services and technologies, the Group now becomes the second-largest player in the U.S., opening a new phase of growth for the company in the country. The transaction is expected to be accretive from 2027 excluding Purchase Price Allocation adjustments, and confirms all announced financial objectives related to the integration including expected synergies.

Hazardous waste treatment has become a strategic sector in the U.S., driven by rising industrial demand, tighter environmental standards and the expansion of high-growth industries requiring specialized treatment solutions. From health care, pharmaceuticals and retail to advanced manufacturing, semiconductors and clean-energy production, etc., access to reliable treatment capacity is now essential to production continuity, expansion and competitiveness. Without sufficient infrastructure, companies face an increasing operational and strategic bottleneck that could limit industrial growth and reshoring ambitions, while also creating risks for public health and the environment.

"This is a tremendously significant transaction at a time when the U.S. and the world are facing unprecedented environmental security challenges that are testing the limits of our resilience and competitiveness. It strengthens our position in the growing U.S. hazardous waste market, unlocks strong value creation potential and further targets our offerings to the most dynamic sectors of the American economy. Combined with the acceleration of our asset rotation program, it reinforces Veolia's capacity to address the growing demand for environmental security," said Estelle Brachlianoff, CEO of Veolia.

"Veolia is truly an environmental services company like no other, and combining our strengths with those of Clean Earth creates a new world of possibilities for Veolia as well as the industries we serve. With Clean Earth, we are building a national platform to address environmental security challenges and setting the benchmark for safety, compliance and innovation in the industry," said Nadège Petit, CEO of the North America Zone. "We are

¹ Proforma Veolia US + Clean Earth 2025: \$6.3bn revenue

excited to welcome our new colleagues from Clean Earth, who share our deep commitment to safety, compliance, customer service excellence and sustainability. Together, we are transforming the hazardous waste industry while making a difference for the customers and communities we serve through an expanded asset base and innovative treatments, such as PFAS and other emerging contaminants.”

Expanded treatment network bring new strengths

Veolia effectively doubles its hazardous waste management offerings and expands its customer service and treatment network to all corners of the country, including regions new to Veolia such as the Pacific Northwest. This will bring advanced treatment, disposal and end-to-end waste management solutions to more customers, unlocking new business opportunities, improving logistics and strengthening the Group’s ability to serve major retail and healthcare clients across their nationwide operations.

Veolia now provides hazardous waste services at more than 150 locations throughout the U.S., with six high temperature RCRA¹ permitted incineration units, 33 EPA-permitted treatment facilities and more than a thousand operating permits to serve client needs. This reflects the complementary nature of the Clean Earth portfolio that will allow a smooth integration process and enhanced added value for customers.

Key financial objectives

- \$120m of synergies by year 4, backed by a strong integration track record
- EPS accretion before PPA from 2027
- Group’s Hazardous Waste EBITDA to grow by a CAGR of at least 10%² over 2024–27

Key figures

- Enterprise Value of \$3bn (or ~€2.6bn), representing 9.8x 2026e EBITDA³ post run rate synergies
- 2X size of Veolia US Hazardous Waste becoming the number 2 player in the US
- Veolia’s global Hazardous waste revenue will increase to €5.2bn, EBITDA, margin will increase to 17%⁴
- Veolia’s revenue in the U.S. will reach \$6.3bn⁵, reinforcing its international footprint

3. Press Release dated 6 May 2026

"

**Press Release
Q1 2026 Key Figures**

**Very good Q1 performance with solid growth
and significant EBITDA progression, in line with annual guidance**

Paris, 6 May 2026

- Solid growth continues, driven by the demand for essential services and environmental security
- Sustained EBITDA progression of +5.1%¹, in line with annual guidance, and current EBIT² up +7.2%⁽¹⁾
- Unique positioning as a worldwide innovative and multilocal player, and a business model combining resilience and growth, leading to limited Middle-East war impact
- Continued Group profile transformation towards international and innovative services, fueling growth and efficiency beyond GreenUp
- 2026 guidance and GreenUp plan trajectory fully confirmed

Key figures:

In €M	Q1 2025	Q1 2026	Variation at constant scope and forex
Revenue	11,507	11,427	+1.0% +2.1% excluding energy prices
EBITDA	1,695	1,766	+5.1%
EBITDA margin	14.7%	15.5%	+73bps (current)
Current EBIT ⁽²⁾	915	971	+7.2%
Net Financial Debt ⁽²⁾	18,855	20,797	

Estelle Brachlianoff, CEO of the Group, stated:

"Veolia's first quarter performance demonstrates the solidity of the Group's growth profile and confirms its excellent development outlook. We have built a model whose resilience is structurally anchored in our fundamentals. Focused on environmental security, Veolia addresses growing critical needs, and our business model makes us relatively insensitive to economic cycles or inflation.

With organic revenue growth of +2.1%⁽¹⁾ excluding energy prices and a remarkable increase in our EBITDA of +5.1%⁽¹⁾, we are showing our ability to perform and to maintain our operational discipline with €96 million in efficiency gains in the first quarter.

We are determinedly continuing to transform the Group profile towards international markets and technologies. Thus, in the first quarter, we continued to develop innovative offerings with the acquisition in PFAS decontamination in Australia, and have completed the main steps to successfully close the strategic acquisition of Clean Earth in the US by the end of June.

¹ At constant scope and forex

² Before Suez PPA

Innovation is at the heart of our strategy. We have announced an ambitious plan to accelerate our presence in the data center and microelectronics industries, aiming for more than one billion euros in annual revenue by 2030. At the same time, we are committed to doubling the share of operational efficiency gains from digital and artificial intelligence to reach 50% by 2030.

We confidently confirm our 2026 targets and the trajectory of our GreenUp plan. Together, we are building the environmental security of tomorrow.”

KEY Q1 2026 FACTS

Sustained Revenue growth of +2.1%⁽¹⁾ to €11,427M:

- Growth in Water (+2.0%⁽²⁾) and in Energy (+4.1%⁽¹⁾). Stable Waste (-0.1%⁽²⁾)
- Good International growth (+3.1%⁽²⁾ in Americas, Asia Pacific, Africa Middle-East)
- Including the impact of lower energy prices, total Group Revenue is up by +1.0%⁽²⁾

Operational Performance in line with annual guidance: EBITDA of €1,766M, an organic growth of +5.1%⁽²⁾, in the target range of +5% to +6%⁽²⁾, and margin increase of +73bps, with:

- Growth and Performance (+5.1%) fueled by net pricing, productivity and efficiency gains with €96M gross efficiency gains in Q1, in line with annual target of above €350M

Current EBIT⁽³⁾ up +7.2%⁽²⁾, to €971M.

Net financial debt⁽³⁾ under control at €20,797M, with significant net free cash-flow improvement fueled by strict management of Capex and Working capital requirements.

Continued Group profile transformation towards international and technologies

- **Imminent closing of Clean Earth acquisition in Hazardous Waste in the US**, expected by June 2026, following antitrust clearance and Enviri's shareholders approval
- **Disposal process ready for the €2bn+ plan** to be delivered over 2 years post closing of Clean Earth transaction: several scenarios prepared
- **Full integration of Water Technology** following buyout of minority interests in 2025 well on-track, with €30M synergies already delivered out of €90M expected by 2027, demonstrating strong track-record

Innovation to fuel growth and efficiency ambitions beyond GreenUp:

- **Veolia announces an ambitious plan to accelerate its footprint in the data centers industry and microelectronics, targeting over €1 billion in annual revenue from these two markets by 2030.** The

¹ At constant scope and forex and excluding energy prices

² At constant scope and forex

³ Before Suez PPA

company aims to leverage its proprietary technologies and global expertise to address the growing demand for integrated solutions in water management, local energy and hazardous waste treatment

- Veolia intends to fully leverage the potential of digital and AI-driven solutions to sustain its recurring efficiency plan of above €350M per year. The Group notably targets to **double the share of digital and AI efficiency gains to 50% of operational efficiency by 2030**, compared with 23% in 2025

NEW BUSINESS DEVELOPMENTS

Global - Veolia launched in London a new global offer for data centers, Data Center Resource 360, designed to address the critical environmental and operational challenges facing the rapidly expanding digital infrastructure sector, while supporting the resilience of communities and responding to their critical resource needs. The offer places a particular emphasis on their integration and acceptability into local ecosystems, at a time when environmental security is emerging as a key strategic priority.

In addition, in the context of this new offer, **Veolia works with Amazon to develop reclaimed Water for cooling system for Data Center**. Collaboration combines Veolia's advanced water reuse technologies with Amazon AI and cloud capabilities to advance more sustainable strategies for data center infrastructure. This supports Amazon's goal to be water positive in direct data center operations by 2030 and aligns with the objectives of Veolia's GreenUp strategic program regarding resource preservation, pollution control, and decarbonization.

Australia - Veolia strengthens its leadership in PFAS treatment in Australia with the acquisition of the country's major soil remediation player. The Group reinforces its position as a pioneer in the fight against PFAS contamination in Australia, with the acquisition of Enviropacific acting as a double growth booster - accelerating both its geographic expansion and its capabilities in hazardous waste treatment - fully aligned with its global GreenUp strategy. The transaction, part of usual tuck-ins, is valued at AUD 228 million (Enterprise Value) and was closed at the end of March 2026. Enviropacific reported FY25 turnover of approximately AUD c.250 million, with nearly 300 employees.

Czech Republic - Veolia drives the Czech coal exit with a multi-energy transformation in Karviná. The Group is transforming the Karviná plant into a multi-energy plant, eliminating coal use by 2029, while serving approximately 50,000 households. Based on local and circular energy sources, the new system will reduce annual CO2 emissions by 200,000 tonnes while ensuring long-term price stability and air quality improvements for the Karviná and Havířov regions. This landmark project serves as a cornerstone of Veolia's broader "New Urban Energy" development effort, aiming to position the Group as the European leader in district heating and achieve a full coal exit across the continent by 2030.

Global - Veolia renews, for the ninth consecutive year, its inclusion in the Dow Jones Best-in-Class World and Europe Indices, which comprise sustainability leaders identified by S&P Global through the Corporate Sustainability Assessment (CSA). The World Index represents the top 10% of the largest 2,500 companies in the S&P Global Broad Market Index (BMI) based on long-term economic, environmental and social criteria, and the Europe Index comprising European sustainability leaders.

GUIDANCE FULLY CONFIRMED

Our 2026 targets are fully confirmed:

- Solid organic⁽¹⁾ revenue growth excl. energy prices
- Organic⁽¹⁾ EBITDA growth of +5% to +6%
- Current net income Group share⁽²⁾ growth of minimum +8% at constant forex and excl. Clean Earth
- Current EPS Group share⁽²⁾ to grow in line with current net income Group share⁽²⁾ (thanks to share buyback plan to compensate the impact of the employee shareholding program)
- Dividend growth in line with current EPS Group share growth⁽²⁾
- Leverage ratio equal or below 3x excluding Clean Earth (equal or slightly above 3x with Clean Earth)

In addition,

- Assuming Clean Earth acquisition closing mid 2026, the transaction will be accretive to current net income from 2027 (before PPA) and synergies will start in 2027
- The €2bn+ disposal program will be delivered in the two-years post closing of Clean Earth acquisition

GreenUp trajectory is fully confirmed.

DETAILED RESULTS AT 31 MARCH 2026

Sustained Revenue growth to €11,427M, up +1.0% on a like-for-like basis, and by +2.1% excluding the impact of energy prices.

EBITDA growth to €1,766M, i.e. +5.1% organic growth. Margin increase of +73bps.

The organic growth of **revenue by operating segments** was as follows:

In €M	Q1 2025	Q1 2026	Variation at constant scope and forex
Water Technologies	1,156	1,061	-2.2%/+4.3% excluding projects
Americas, Asia Pacific, Africa Middle-East	2,845	2,799	+3.1%
Europe	5,351	5,407	+0.8%/+3.0% excluding energy prices
France and Hazardous Waste Europe	2,153	2,160	+0.6%
TOTAL⁽³⁾	11,507	11,427	+1.0%/+2.1% excluding energy prices

¹ At constant scope and forex

² Before PPA

³ Including Others

The **Water Technologies** activity reported revenue of 1,061 million euros, down -2.2% on a like-for-like basis versus Q1 2025, due to Projects slowdown, notably in the Middle-East, while Products & Technologies and Services performance remained strong. Excluding Projects, Water Technologies was thus up +4.3% on a like-for-like basis.

In the **Americas, Asia Pacific, Africa Middle-East**, revenue reached 2,799 million euros, an organic growth of +3.1% and up +5.3% at constant forex, increasing across most geographies.

- In **North America**, revenue reached 707 million euros, up +4.7% on a like-for-like basis, thanks to price increases in Regulated Water, Municipal Water and Hazardous Waste. The Hazardous Waste activity also benefited from strong commercial momentum despite the intensity of the adverse weather conditions during the period.
- **Latin America** revenue stood at 525 million euros in, up +7.6% on a like-for-like basis. This growth was driven by tariff indexations in Regulated Water in Chile and by a good progression of Waste activity in Brazil, Argentina and Colombia.
- In **Asia**, revenue amounted to 618 million euros, down -1.6% on a like-for-like basis. This decrease was mainly due to the slowdown in Waste activity in Hong-Kong. However this is partly compensated by several positive performances. Japan posted positive momentum in Municipal Water, with a good contract renewal rate. South-East Asia and India benefited from sustained volumes in plastic recycling and hazardous waste treatment. Finally, China revenue remained stable (+0.3% on a like-for-like basis), the strong growth in Waste activity offsetting volume decrease in Industrial Water.
- In the **Pacific** region, revenue amounted to 542 million euros, up +1.4% on a like-for-like basis, and up by +8.1% at constant forex with acquisitions such as Enviropacific in Australia. The activity was driven by the very strong performance of Waste treatment and recovery operations (with significant volume growth in landfills and transfer stations) and the Water business (volumes and contract renewals).
- In **Africa Middle-East**, revenue totaled 407 million euros, up +4.4% on a like-for-like basis, in a complex geopolitical context. This increase is supported in particular by the strong performance in Morocco of +7.4% on a like-for-like basis, while in the Middle-East, growth was +3.0% on a like-for-like basis.

Revenue in **Europe** reached 5 407 million euros on March 31, 2026, an organic variation of +0.8%. Excluding the effect of energy prices, revenue rose by +3.0%, driven by Water (+5.4%) and Energy, combined with the resilience of Waste.

- In **Central and Eastern Europe**, revenue stood at 3 357 million euros, up +0.4% and up +3.1% excluding the effect of energy prices (on a like-for-like basis). This performance was mainly driven by a very favorable climate effect in Energy, particularly in Poland, which enabled to offset the decrease in energy prices. Growth was also supported by the strong momentum in the Water business, which benefited from significant tariff indexations (notably in Romania, the Czech Republic, and Bulgaria), allowing to offset a downturn in activity in Germany, particularly in Solid Waste.
- In **Northern Europe**, revenue of 1,052 million euros rose by +2.5% on a like-for-like basis. In the United Kingdom, revenue increased by +3.8% at constant scope and forex, thanks to the price increase and commercial gains, particularly in Waste treatment activities.
- In **Iberia**, revenue stood at 711 million euros, up +3.2% on a like-for-like basis. Growth was driven by the strong performance of the Water, which benefited from a favorable revision of tariffs in Spain. The increase in volumes and works in the Energy business offset the decline in energy prices.
- **Italy** generated revenue of 286 million euros, down -5.5% on a like-for-like basis, notably following a decrease in energy prices.

Revenue in **France and Hazardous Waste Europe** amounted to 2 160 million euros, slightly up +0.6% on a like-for-like basis compared to March 31, 2025.

- **Water** revenue of 723 million euros was up +0.3% on a like-for-like basis, thanks to higher volumes (+1.1%).

- **Waste** revenue stood at 698 million euros. The decrease of -1.1% on a like-for-like basis is mainly due to lower landfill volumes, commercial selectivity, decrease in electricity revenue, partially offset by favorable price effect.
- **Hazardous Waste Europe** revenue reached 587 million euros, down -0.4% on a like-for-like basis. This decrease was mainly due to bad weather at the beginning of 2026 and exceptional technical shutdowns.

— — —

The organic growth of **revenue by business**⁽¹⁾ was as follows:

In €M	Q1 2025	Q1 2026	Variation at constant scope and forex
Water	4,155	4,070	+2.0%
Municipal Water	2,999	3,010	+3.6%
Water Technologies	1,156	1,061	-2.2%/+4.3% excl. projects
Waste	3,811	3,764	-0.1%
Solid Waste	2,791	2,729	-0.8%
Hazardous Waste	1,019	1,035	+1.7%/+6.0% incl. tuck-ins
Energy	3,541	3,592	+1.2%/+4.1% excluding energy prices
District Heating and Cooling Networks	2,617	2,657	+0.8%/+4.4% excluding energy prices
Bioenergies, Flexibility and Energy Efficiency	924	935	+2.2%/+3.4% excluding energy prices
TOTAL	11,507	11,427	+1.0%/+2.1% excluding energy prices

Water activities recorded revenue growth of +2.0% on a like-for-like basis, driven by tariff increases of +1.8%, as well as improved volumes.

- Revenue from **stronghold Municipal Water** rose by +3.6% on a like-for-like basis, with tariff increases in most geographies (particularly in Spain, Central and Eastern Europe, North America and Chile).
- Revenue from the **Water Technologies booster** business was down -2.2% on a like-for-like basis. This activity was impacted by project slowdown, notably in the Middle-East. Excluding Projects, the activity was thus up +4.3% on a like-for-like basis.

Revenue from **Waste** activity remained stable (-0.1 % on a like-for-like basis), thanks to favorable tariff revisions (+1.9%) offsetting decrease in paper and plastic prices (-0.6%), Commerce/Volume/Works effect (-0.8%) and negative impact from adverse weather.

- Revenue from the **stronghold Solid Waste** was slightly down -0.8% on a like-for-like basis. This resulted from a combination of an unfavorable external context (bad weather and decrease in the prices of recyclable materials and energy) and commercial selectivity.
- Revenue from the **Hazardous Waste booster** rose by +1.7% on a like-for-like basis and by +6.0% including tuck-ins. This growth was mainly explained by the strong performance of chemical waste

¹ Restated to reflect changes in the business and improve compatibility across periods

treatment and incineration activities, as well as positive tariff adjustments that offset the negative impact of adverse weather conditions in the United States and Europe.

Energy revenue was up +1.2% on a like-for-like basis and +4.1% excluding the impact of energy prices. The favorable climate impact of +2.4% and the commerce/volume effect of +1.3% enabled to largely offset the unfavourable energy price effect of -2.9%.

- Revenue from the **stronghold District Heating and Cooling Networks**, mainly located in Central and Eastern Europe, rose by +4.4% on a like-for-like basis after neutralizing the impact of energy prices. This growth was driven by favorable weather conditions combined with good volumes, offsetting the negative impact of energy prices.
- Revenue of the **Bioenergies, Flexibility and Energy Efficiency booster** grew by +3.4% on a like-for-like basis, excluding the impact of energy prices. This development was mainly due to the strong performance in Northern Europe, which offset the decline in volumes and prices in Italy.

Revenue growth by effect breaks down as follows:

- **The currency effect** was -269 million euros (-2.3%), reflecting the international dimension of the Group (c. 60% of non-euro revenue) and mainly corresponding to depreciation of US, UK, Argentinian, Japanese and Chinese currencies, partially offset by improvement in Czech and Hungarian currencies⁽¹⁾. It should be noted that these are translation impacts and not transaction impacts, with no impact on margins.
- **The perimeter effect** of +69 million euros (+0.6%), with notably recent acquisitions in hazardous waste treatment in the US, in Japan, in Brazil and in Australia.
- **The commodity price effect** (corresponding to changes in energy and recycle prices) amounted to -126 million euros (-1.1%), due to lower energy prices (-116 million euros), mainly in Central and Eastern Europe, as well as the negative effect of recycle prices, mainly paper and plastic (-10 million euros).
- **The climate effect** amounted to +66 million euros (+0.6%), mainly in Energy in Central and Eastern Europe linked to a colder winter at the beginning of the year compared to 2025, partially impacted by a negative effect of adverse weather on Waste.
- **The Pricing and Commerce effect** amounted to +180 million euros (+1.6%), with a sustained growth in Water and Energy, partially offset by lower Waste volumes ; as well as favorable tariff indexations and price increases in Water and Waste activities.

EBITDA growth by effect breaks down as follows:

- **The currency impact** on EBITDA amounted to -33 million euros (-2.0%). This mainly reflects the international dimension of the Group and corresponds to the depreciation of US, British, Chinese, Japanese, Chilean and Argentinian currencies, partially offset by improvement in Czech and Hungarian currencies⁽²⁾. It should be noted that these are translation impacts and not transaction impacts, with no impact on margins.
- **The perimeter impact** of +17 million euros (+1.0%), with notably recent acquisitions in hazardous waste treatment in the US, in Japan, in Brazil and in Australia.
- **Changes in commodity prices** (energy and recycled materials) had a net unfavorable impact on EBITDA of -16 million euros (-0.9%), mainly due to lower energy prices (-18 million euros).

¹ Main currency impacts: US dollar (-123 million euros), British pound (-30 million euros), Argentinian peso (-23 million euros), Japanese yen (-21 million euros), Chinese yuan (-15 million euros), Czech koruna (+20 million euros) and Hungarian forint (+21 million euros).

² Main currency impacts: US dollar (-12 million euros), British pound (-5 million euros), Chinese yuan (-4 million euros), Japanese yen (-3 million euros), Chilean peso (-3 million euros), Argentinian peso (-3 million euros), Czech koruna (+6 million euros) and Hungarian forint (+2 million euros)

- The **climate impact** was +16 million euros (+1.0%), mainly in Energy in Central and Eastern Europe, due to cold weather conditions until mid-March 2026, while the adverse weather negatively impacted Waste.
- **Growth and Performance** of +87 million euros (+5.1%) thanks to **Pricing, Productivity and Efficiency** (net of gains shared with customers, contract renegotiations and timing effects on the passing on of costs) of 62 million euros (+3.6%). Water Technologies synergies amounted to 10 million euros at the end of Q1 2026. The Commerce/Volumes/Works contribution was limited due to decrease in Waste volumes in Q1.

Current EBIT⁽¹⁾ growth of +7.2% at €971M, at constant scope and forex

The increase in current EBIT⁽¹⁾ compared with March 31, 2025 at constant scope and forex amounted to +66 million euros (+7.2%), and was mainly due to:

- a strong growth in EBITDA (+87 million euros at constant scope and forex);
- a rise in amortization⁽¹⁾, including the repayment of operating financial assets (-18 millions euros on a like-for-like basis);
- quasi-stable “provisions net of capital gains on disposals, and others” and “share of current net income of joint ventures and associates”.

The currency effect on current EBIT⁽¹⁾ was negative by -18 million euros, mainly due to depreciation of US dollar, British pound, Chinese yuan and Argentinian peso for -3 million euros each, partially offset by favorable effects on Czech koruna (+4 million euros) and Hungarian forint (+3 million euros).

PRESS RELEASE

April 23, 2026

Combined Shareholders' General Meeting, April 23, 2026

The Combined General Meeting of Veolia Environnement shareholders, held today at its administrative headquarters, under the chairmanship of its Chairman of the Board of Directors, Mr. Antoine Frérot, **approved all of the resolutions submitted to it with a quorum of 77.04%.**

These resolutions relate in particular on:

- **the approval of the parent company financial statements and group consolidated financial statements for fiscal year 2025;**
- **the setting of the dividend in cash** for the fiscal year ended on December 31, 2025 at **€1.50 per share**. The shares will be traded ex-dividend as of May 11, 2026 and **payable from May 13, 2026;**
- **the renewal of the terms of office as Director of Mr. Antoine Frérot and Mrs. Estelle Brachlianoff** for a four-year period which will expire at the end of the General Shareholders' Meeting that will be called to approve the financial statements for the year ended December 31, 2029. At the recommendation of the Nominations Committee, the Board of Directors reappointed **Mr. Antoine Frérot as Chairman of the Board of Directors**, it being stipulated that in 2028 he will reach the age limit for chairing the Board of Directors as defined in the Articles of Association. The Nominations Committee and the Board of Directors will, in 2026 and 2027, consider the succession plan for the Chairman of the Board of Directors. Furthermore, the Board of Directors confirmed **Mrs. Estelle Brachlianoff as Chief Executive Officer;**
- **the appointment of Mr. Jean-Christophe Taret** as Director representing employee shareholders and **Mrs. Sandra Cortese** as a replacement for a four-year period which will expire at the end of the General Shareholders' Meeting that will be called to approve the financial statements for the year ended December 31, 2029;
- **the compensation paid during fiscal year 2025 or awarded in respect of the same fiscal year** to Mr. Antoine Frérot, Chairman of the Board of Directors and Mrs. Estelle Brachlianoff, Chief Executive Officer;
- **the information relating to the 2025 compensation of the Directors** (excluding the Chairman of the Board of Directors and Chief Executive Officer);
- **the compensation policy in respect of fiscal year 2026** of the Chairman of the Board, the Chief Executive Officer and Directors;
- **the financial authorizations** granted to the Board of Directors to increase the share capital by issuing shares and/or securities, and in particular those in the frame of **the implementation of employee share ownership plans;**
- **the renewal of the authorization** granted to the Board of Directors **to grant shares to corporate officers and employees of the Group and corporate officers of the Company.**

After this combined general meeting, **the Board of Directors** of Veolia Environnement is made up of **fifteen Directors**, including 75% independent Directors (excluding the two Directors representing employees and the Director representing employee shareholders) and 46%¹ women, and **one non voting member** (*censeur*):

- Mr. Antoine Frérot, *Chairman of the Board of Directors*;
- Mrs. Estelle Brachlianoff, *Chief Executive Officer*;
- Mr. Pierre-André de Chalendar*, *Senior Independent Director*;
- Mr. Olivier Andriès*;
- Mrs. Maryse Aulagnon;
- Mrs. Véronique Bédague*;
- Mr. Philippe Brassac*;
- Mr. Arnaud Caudoux*;
- Mrs. Isabelle Courville*;
- Mr. Franck Le Roux, *Director representing employees*;
- Mrs. Julia Marton-Lefèvre*;
- Mr. Pavel Páša, *Director representing employees*;
- Mrs. Elena Salgado*;
- Mr. Jean-Christophe Taret, *Director representing employee shareholders*;
- Mr. Guillaume Texier*;
